

**Máster Universitario en “Ciencia y Tecnología Nuclear”**

**Master Erasmus Mundus SARENA (*Safe and Reliable Nuclear Applications*)**

WEBINAR

**“MYRRHA – An innovative research infrastructure”**

**Dr. Pablo Romojaro**

Research Engineer SCK CEN

Introduced by: Prof. Nuria García Herranz

Dr. Pablo Romojaro is a research engineer at SCK CEN. During his career, he has worked in the areas of reactor design, spent fuel characterization, nuclear data, and sensitivity and uncertainty analysis.

Brief content:

- The SCK CEN. MYRRHA in the current energy and environmental context. ADS. Historical evolution of the project. Applications.
- MYRRHA components: LINAC, reactor, proton target facility, full power facility. Description.
- Implementation and current status of the project.

Date: **22 March, 2022.**

Time: **10:30 am** to 12:30 pm

**Online Zoom meeting**
